## Monthly Newsletter – February 2009

### WE OFFER ALL RISK AUTO INSURANCE

- For drivers with poor credit, SR-22s, and poor driving records. Low monthly payments and same day service available.

### **IMPROVING YOUR FICO CREDIT SCORE**

In this day of age it is becoming more important to have a good credit score. Many more things are now based on your credit score including the cost of insurance premiums. Here are a few tips to help you improve or maintain your credit score.

#### **Payment History Tips**

- **Pay your bills on time.**  
Delinquent payments and collections can have a major negative impact on your FICO score.
- **If you have missed payments, get current and stay current.**  
The longer you pay your bills on time, the better your credit score.
- **Be aware that paying off a collection account will not remove it from your credit report.**  
It will stay on your report for seven years.
- **If you are having trouble making ends meet, contact your creditors or see a legitimate credit counselor.**  
This won't improve your credit score immediately, but if you can begin to manage your credit and pay on time, your score will get better over time.

#### **Amounts Owed Tips**

- **Keep balances low on credit cards and other "revolving credit".**  
High outstanding debt can affect a credit score.
- **Pay off debt rather than moving it around.**  
The most effective way to improve your credit score in this area is by paying

down your revolving credit. In fact, owing the same amount but having fewer open accounts may lower your score.

- **Don't close unused credit cards as a short-term strategy to raise your score.**
- **Don't open a number of new credit cards that you don't need, just to increase your available credit.**

This approach could backfire and actually lower your credit score.

### **Length of Credit History Tips**

- **If you have been managing credit for a short time, don't open a lot of new accounts too rapidly.**

New accounts will lower your average account age, which will have a larger effect on your score if you don't have a lot of other credit information. Also, rapid account buildup can look risky if you are a new credit user.

### **New Credit Tips**

- **Do your rate shopping for a given loan within a focused period of time.**  
FICO scores distinguish between a search for a single loan and a search for many new credit lines, in part by the length of time over which inquiries occur.
- **Re-establish your credit history if you have had problems.**  
Opening new accounts responsibly and paying them off on time will raise your credit score in the long term.
- **Note that it's OK to request and check your own credit report.**  
This won't affect your score, as long as you order your credit report directly from the credit reporting agency or through an organization authorized to provide credit reports to consumers.

### **Types of Credit Use Tips**

- **Apply for and open new credit accounts only as needed.**  
Don't open accounts just to have a better credit mix - it probably won't raise your credit score.
- **Have credit cards - but manage them responsibly.**  
In general, having credit cards and installment loans (and paying timely payments) will raise your credit score. Someone with no credit cards, for example, tends to be higher risk than someone who has managed credit cards responsibly.
- **Note that closing an account doesn't make it go away.**  
A closed account will still show up on your credit report, and may be considered by the score.

Weighting of factors in a FICO score

### **Interesting Facts**

1. Contrary to popular belief, lightning travels from the ground upwards not from the sky downwards.
2. When young and impoverished, Pablo Picasso kept warm by burning his own paintings.
3. Polar bear fur is not white, it's clear.
4. According to Gaming Law, casinos have to stock enough cash to cover all the chips on the 'floor'.
5. The word Tips is actually an acronym standing for 'To Insure Prompt Service'.
6. Tablecloths were originally meant to serve as towels with which guests could wipe their hands and faces after dinner.
7. Peanuts are one of the ingredients in dynamite.
8. Check your map. Virginia extends farther west than West Virginia.
9. Jimi Hendrix, Janis Joplin, and Jim Morrison were all 27 years old when they died.
10. More Monopoly money is printed in a year, than real money printed throughout the world.
